TELEGRAMS

(via Galveston.)

London 14th.—The English people are doubly distressed by the death of Prince Albert Victor, at 9.15 this morning, and that of Cardinal Manning an hour earlier. The city is plunged in profound grief; business is suspended, and the streets are crowded with people. The Queen is in a very sad and depressed condition, and the Princess of Wales is inconsolable. The big bells of St. Paul's Cathedral, which are seldom heard, are now announcing by their solemn tolling that the Duke of Clarence is no more. Cardinal Manning died at 8.20. During the night he grew rapidly worse and fell into a state of complete prostration. At 7.30 the Cardinal lost consciousness, and died calmly and without pain.

Paris 14th.—The news of the decoration of General Alvensleben by Emperor William has caused a very bad impression here; as it is considered an insult to France.

Sophia, 14th—Fifty officers of the army have been arrested here, accused of a plot against the life of Prince Ferdinand. Stambuloff says that the Prince miraculously escaped being poisoned with strichnine by the cook of the Palace.

Berlin, 14th—The Emperor opened the Landtag to-day. General Caprivi read the speech from the throne.

Madrid, 14th—Great inundations in the Province of Huelva. Tremendous losses. Communication interrupted.

Odessa, 15th—According to official advices, it is stated, that the prohibition to export cereals will cease next April.

Paris, 15th—The Pope has written to the Archbishop of Paris ordering him to give the necessary instructions to his clergy not to oppose the Republican Government, and to follow the conciliatory policy of the Vatican.

London, 15th—Advices from Hong Kong state that the Chinese officials in Canton have seized the property of English merchants.

Berlin, 15th—The anti-Semetic agitation is again reviving. In several small towns in Russia the houses of Jews have been attacked and burnt to the ground the owners being massacred.

London, 15th—It is reported that the marriage between Prince George and Princess May is already arranged. The Princess is disconsolate and refuses to take food. The Prince of Wales himself penned the telegrams announcing his son's death. The funeral of the Duke will be military. Telegrams of condolence have been received from President Carnot, President Harrison and all the European Courts. All London walked to Windsor to express sympathy. Princess Teck, they say, is so affected that she has fallen sick.

Rome 15th.—Rudini made a speech in the Deputies to-day sympathising with England for the loss of the Duke of Clarence. The Pope sent telegrams of condolence to Queen Victoria and the Prince of Wales.

Lisbon 15th.—The collective resignation of the Cabinet was sent to the King to-day, and immediately accepted.

Berlin 15th.—Duke Ratibor has been appointed President of the Landtag.

THE FAMINE IN RUSSIA.

Notwithstanding the iron rule of the Czar, which allows the Press to publish only what he likes, the terrible sufferings of the Russian people are becoming known all over Europe. Famine and typhus fever are carrying off thousands of the wretched Moujiks, just as happened in Ireland 45 years ago. The whole machinery of the Russian Government seems to have broken down, for although the railways belong to the State there are no means for conveying food to those districts where the people are dying wholesale.

Hardly sixty days have elapsed since Russia effected a loan for £20,000,000 sterling, but there is no evidence as to what portion, if any, of all that money has been devoted to the relief of the starving peasantry. We now see what a terrible state of things may result when a country has no Constitution, when all power resides in one man, and that man lacks the genius to cope with public disaster.

The Czar holds all the strings of power in his vast empire, which numbers over 100 millions of people: he gives his commands through 30,000 public officials, most of them notoriously corrupt. If he had the wisdom of Solomon, the wealth of Croesus, and the magnanimous patriotism of Washington he would be powerless to carry out a single beneficent decree in the present vitiated condition of Russian administration.

Whoever has lived some time in Russia, or had anything to do with concessions for railways or any other public works, invariably has on hand a fund of anecdotes about bribery, frauds, corruption &c. that would seem incredible. Under these circumstances it is impossible either for the Russian Government or for neighboring nations to make any effort to check the terrible ravages of famine and famine-fever.

It is indeed a sarcasm on the boasted enlightenment of the closing decade of the 19th century that millions of men and women, within 48 hours' journey of Paris, Berlin and Vienna, should be dying like dogs in the villages and on the highroads of a country that has been for half-a-century the granary of Europe. No hand is lifted to save them, or at least the efforts that are made are infinitely short of the tremendous exigencies of the hour.

There is every reason to fear that the famine will last several months yet. It was foreseen in time to have taken precautions and provided stores of grain, but the Chancellor Giers was too busy in his political arrangements with the French Government to attend to the lives of the Russian people.

WHEELER'S PORT SCHEME.

It is much to be regretted that Congress came to no determination on a scheme of such magnitude as that of Mr. Wheeler. In the absence of scientific men in this country, unconnected with rival projects, it would have been advisable to submit it to examination by two eminent experts, one in France another in England, that the public of Buenos Ayres might be able to judge as to its merits.

We gladly make room in another column for a violent attack on Mr. Wheeler and his scheme which appeared in the *Financial Review* of this city, because after reading it we are more disposed than before to consider the Wheeler scheme in a favorable light. The public will doubtless see also that the matter deserves serious attention, since the arguments used against the scheme are inconclusive.

It is not surprising that the Wheeler project should be characterised as visionary, when we remember that Mr. Lesseps's proposal to make the Suez Canal was described by Geo. Stephenson, Lord Palmerston and the *Times* as "the ingenious device of a Frenchman to swindle John Bull." Mr. Wheeler's port is decidedly feasible: the only question is one of cost and how far its construction would meet the requirements of our trade.

BAD NEWS FROM RIO.

It is incomprehensible why the Argentine and Montevidean authorities do not close the River Plate against all vessels coming from Rio Janeyro or Santos. Telegrams yesterday from Rio say that "yellow-fever has now spread "to all quarters of the city, and numbers of victims are dying daily." Almost every steamer that enters our port has had sickness or death on board from the epidemic, and yet our sanitary authorities are content to order a few days' quarantine, as sufficient precautions for the health of our city.

If Buenos Ayres had not been previously visited by one of the most awful outbreaks of yellow-fever in the history of mankind, which carried off one-tenth of her population, in 1871, we might regard without alarm the neglect of the Government to take the only safe measure for preventing the introduction of the epidemic, namely closing the port. We are still only at the beginning of summer, and the excessive heat of the season predisposes the population to fevers of whatever kind.

It is not too late for the people of Buenos Ayres to take proper steps towards averting another plague like that of 1871; let them begin by calling on the Government to allow no more vessels from Rio Janeyro or Santos to enter our port.

LATEST FROM MONTEVIDEO.

Jan. 15th.

The financial question is the absorbing topic of the hour. The news received so far would seem to indicate that the arrangements made by Dr. Ellauri are going to fall through. Dr. Ramirez's resignation is spoken of as a foregone conclusion The Chambers did not meet yesterday, nor will they meet until definite advices be received from London in regard to the proposed bank. Last night, it is reported, Government received telegrams of a more reassuring tone. But nothing is known positively.

With the exception of the death of the Ortegal passenger on Flores Island, there is nothing new from that quarter. The row with the B. Ayres Health Board has been settled.

It is rumored that the steamship companies are going to buy two pontoons, one for Rio, and the other for Santos, with a view of unloading without contact with the shore and thus avoiding quarantine here.

Monday is the day fixed for the commemoration of the reduction of the port dues. The festivities in the port will be on a magnificent scale.

PROVINCIAL NEWS.

On Wednesday last the pacific townspeople of Olavarria were thrown into such alarm by the arrival of a suspicious pack of individuals, that they bolted their doors and remained in their houses. The individuals in question looked anything but gentlemen. In fact they looked something between a Sicilian bandit and a "gaucho malo." They strolled through the deserted streets of the town and posted themselves near the Town Hall. This circumstance awakened the suspicions of the corporators, who hastened to conceal themselves in the cellars of their neighbors' houses. The corporation of course could not meet under these painful circumstances. The same day the local mayor received several anonymous letters calling on him to resign. The local police took up a strategic position on the roof of a house. It is indeed regrettable that such things should take place in a civilized country, and it is perhaps more to be deplored that these incidents are quite common. Armed men are prowling about in the sierras near Tandil, waiting for the devouring moment, which has evidently not yet arrived. But B. Ayres is not the only province where "armed men" are doing as they please. Santa Fe suffers from the same complaint. The other day the bodies of three estancieros were found with their throats cut, and inquiries shewed that the three men, who were brothers, had started in pursuit of a detachment of bandits who had stolen their cattle. The bandits are supposed to be headed by a police official. The national Government ought to send up a few Krupp guns to blow the rascals over the moon.

The San Luis Legislature has at last voted the project for damming the Rio Quinto. For months and months this project had been lying in the "carpeta" of the Committee. The townspeople had even subscribed to defray the cost of the dam, but the honourable legislators were so occupied with the political question that they forgot all about the project, and would never have remembered it if it had not been for the Cordoba floods and the disasters caused thereby.

The Rosario public is very much shocked by the disclosures of colossal operations of the Provincial Bank. One gentleman got 15 million dollars out of the Bank, and another, who gave Peral a princely donation to carry on his submarine boat experiments, appears to have borrowed very largely too. Both gentlemen have stuck the bank with real estate as security.

The commissioner sent to pay the Rosario schoolmasters bolted to parts unknown with 17,000 dollars. The commissioner, no doubt, was frightened by the rumors of revolution, and in his hurry to avoid the spectacle of useless bloodshed, he forgot about the worthy pedagogues.

La Plata is reported quiet, although political excitement runs high. Mr. Doll has been congratulated on his nomination to the presidency of the Provincial Party.

THE BUENOS AIRES PORT WORKS.

(From the "Financial Review.")

The *South American Journal* contains in its issues of 21st and 28th of November notices relating to the above works. The first is a letter from a gentleman named Wheeler, who has for some time been pestering the Argentine Government with a port scheme of his own; the second is a short leading article throwing doubt on the originality of Mr. Wheeler's ideas and expressing strongly some very inaccurate opinions on the engineering design and probable usefulness of the works partially completed.

Now the importance of removing dirt is dependent on the position it occupies, and we may at once state that we should be happy to leave Mr. Wheeler in his native obscurity were it not for the undeserved and possibly mischievous prominence which the *South American Journal* has conferred upon him.

Possibly the writer in the *Journal* does not know that in Buenos Aires we possess a few engineers whose imagination is a long way ahead of their knowledge, and whose modesty has, up to the present, remained undiscovered. These harmless persons from time to time provide an engineering joke, such as the bridge to Montevideo, the tunnel to Colonia, the Wheeler scheme, the umbrella to cover Buenos Aires, &c., &c., but they don't often succeed in obtaining the serious consideration of so important a critic as the *Journal*.

We consider the attempt to shift the responsibility of the Wheeler plan on to the shoulders of Mr. Cleminson as distinctly unjust to both parties. The latter gentleman is, we believe, a consulting engineer in railway work, and has, in recent years, achieved some reputation and practice in that department. But we are not aware that he has any pretensions to be regarded as a specialist in dock work, or that he has made the careful studies of the estuaries of the River Plate which would be considered necessary by any responsible engineer before venturing to criticise the designs of the eminent firm of specialists to whom the work was actually entrusted.

As regards Col. Church, to whom the *Journal* ascribes a co-paternity in this abortion, we are not acquainted with any claims he has to be regarded as an authority in the matter beyond a certain connection with a recently built line from Villa Maria to Rufino, the conception and execution of which would prevent our placing implicit faith in the interested opinions of the gallant gentleman.

Mr. Wheeler's letter contains an evenly blended mixture of stupendous ignorance, shameless self-puffery, and impudent misstatements. It is a custom in chemical analysis only to treat small samples of the more obnoxious compounds, consequently we shall only select a few specimens. Mr. Wheeler says:—

"The large docks and darsenas connected by locks so narrow that a Government war vessel was lately injured in passing through...

"Width some 65 feet."

Now the man who could write a misstatement of this sort must be very ignorant, or his conduct deserves a harsher description. We assume Mr. Wheeler errs from the former cause, and are therefore happy to give him a little elementary information on the width of locks, such as is to be found in the student's earlier manuals.

A lock is wide or narrow according to the class of vesels likely to use it, and consistently with admitting the widest vessels frequenting the port, the object of the engineer is to have the locks as small as possible, in order to economise first cost, power, and water. A width of 65 feet is ample for the class of ships trading to Buenos Aires Modern practice has been tending to reduce the width of steamers consequent on the change from paddles to screws.

Mr. Vernon-Harcourt, M.A., whose authority we should think even Mr. Wheeler would admit, writing in 1885, says:—

The most ordinary width is about 60 feet, of which width instances exist at London, Hull, Barrow, Leith, Belfast, Panarth, and Hartlepool. Intermediate widths of 65 feet have been constructed at Liverpool, 70 feet at Grimsby and Avonmouth, 72 feet at Bordeaux, and 69 feet at Havre and Dunkirk; whilst the West Indian Docks and Cardiff possess important locks only 55 feet wide. The width of 200 feet was adopted at Liverpool and Havre to accommodate the wide paddle steamers formerly built, but as screw steamers have superseded them the recent entrances at Liverpool have been built only 65 feet wide.

So much for Mr. Wheeler as an engineer. Now listen to him as judge of practical work:—

"It seems to the writer a misnomer to call these holes dug in the mud and tosca of the river bottom, walled up by masonry, and without possibility of flushing—to call these works a port."

If Mr. Wheeler means to convey that "these holes" are not good work, we can only reply that there are no better built docks in the world. They may have been expensive, but everything of its kind is as perfect as skill and money can make it. If Mr. Wheeler's idea is that docks should *not* be excavated from the river bottom nor walled round with masonry, we may remark that the idea is worthy of Mr. Wheeler, but otherwise unknown out of Bedlam.

A final specimen of Mr. Wheeler's modesty:—

"But what is known as the Wheeler port scheme is entirely original with the writer, and no man of brains has ever questioned the fact. For more than fifty years your English, French, German, Dutch, and engineers of other nationalities have expended their genius in efforts to construct a port at Buenos Aires."

Now we can understands quite easily that no man with or without brains would presume to contest the fact that Mr. Wheeler's nonsense is peculiar to himself; but we must give our sympathy to the unfortunate gentlemen of many nationalities who expended their genius for 50 years. Happily Mr. Wheeler with his Wheeler-wing system has come along to set their troubled genius at rest and show them how it should be done.

We will now shortly turn our attention to the writer in the *Journal*, whose ignorance of the subject on which he undertakes to instruct his readers is nearly as vast as that exhibited by Mr. Wheeler.

The Buenos Aires port works are *not* "a gigantic engineering and financial failure."

It is *not* true that they were "forced into existence despite the opposition of the best scientific talent within reach of the Government." The Government went to a firm of engineers whose name stands highest, perhaps in the world, for skill and honesty, and got them to design the works now being executed. Then the Government contracted for their execution with the foremost English contractor then living. If the *Journal* writer means, that the Government actually dared to prefer Messrs. Sir John Hawkshow, Son and Hayter, and Mr. Thomas Walker, to such "scientific talent" as is possessed by Messrs. Wheeler, Church, Cleminson and men of their stamp, we can only congratulate the Government on their choice.

A great point is made of the contamination with which the docks are supposed to threaten the city. It is very difficult to prove a negative; but there is at present no case of sickness that can be traced to the docks, and yet there are, and have been, thousands of workmen living in huts on the very spots which are supposed to be so unhealthy. Neither does chemical analysis reveal any of those dangers which loom so large in Walbrook. "The Government," says the *Journal*, "will have them filled up and cover them with commercial avenues." This we print in italics; any other comment would only mar its stupendous absurdity.

In conclusion, we may say that the comparison made between the ports of La Plata and Buenos Aires is equally misleading; but it would be trespassing too much on the patience of our readers to refute at length all the errors contained in a single paragraph of the article under review.

PARIS LETTER.

(From our own Correspondent)

In order to diminish the chronic strikes in France, the Government has brought in a Bill to constitute Arbitration Courts to meet trade or work dissensions. The Court is to be composed of employers and employed in equal proportions. It is to be presumed in case of a tie vote that an umpire would be called in. This is partly the German system, except that the President of the Arbitration Court is a duly qualified judge, his assessors being capital and labour. No lawyers are allowed to plead, unless by a special permission. At best this plan—and it is much—lessens the tendencies to strikes, and removes friction between rival interests.

According to the French plan, the Government, having the whip hand over all companies, can compel directors to abide by the decision of the Arbitration Courts. But who or what can compel or answer for the strikers abiding by a decision of a Court when not palatable to their wishes? At best, arbitration is only a giving and taking on both sides—the business of life is based on that principle—so that litigants ought never to count that they will obtain all that they expect. It would be a good moment to apply the promised machinery to the colliers' strike in the Pas-de-Calais, the chief coal region of France and employing over 40,000 miners, all of whom are now on strike. When the Government strains a point to save a lame-duck financial company it could also give a peep into the grievances of that subterranean army, whose earnings are not fat, whose labour is rude, and whose lives are exposed to so many risks.

France produces about two-thirds of her total coal wants; she imports the remaining one-third chiefly from Belgium and England. She has never more than a stock for a fortnight in advance to meet her industrial and transport wants. If the miners can keep body and soul together while on strike for three or four weeks, grave troubles must ensue. The men want a uniform minimum salary per day; eight hours to be the number for daily work; the free play of their syndicates, and the realization of the reiterated promises of old-age pensions, compensation for accidents and assistance during illness. As a rule, the coal mines pay a good dividend, and the shareholders are rich. Few millionaires in France but connect with these Black Indies. The miners receive but 5½ fr. daily, with a round-about per centage on the total output of coal. From the Labour Commission in London it appears that many Welsh colliers can earn 10 shillings a day—of course, the majority less. A Welsh collier turns out from 270 to 317 tons of coal yearly

The discussion continues of the Tariff Bill. Major McKinley is left "chalks behind" when pitted against French Senators. All countries that can indulge in reprisals will do so. France will be hemmed in by an alliance far more numerous than the "triplice" and far more dangerous, for, if France cannot dispose of her products, and she must, in order to live, produce, she cannot exist for a very long time as a first class power; she might do a "dabbling trade." And, as prices would necessarily be increased on all her own necessaries of life, that augmentation would be reflected in the selling price of her outputs. She cannot live, move, or have her being independent of the foreign market.

The electors of North Lille have chosen "Dr." Paul Lafargue to represent them in the Chamber. The elected is the type of international socialism based on revolutionary means. He is married to the second daughter of Karl Marx. He has led the usual wild-cat, wandering Jew life of the socio-political Ishmael. He has been, in turn, banished, imprisoned and elbowed out of settled society. He was in prison when chosen deputy. M. Lafargue, it is alleged, is not a "doctor" on any of the French University registers. He was born in Cuba, which is not of much importance. Thackeray claims that a man is not a horse because born in a stable. The point to prove is, was Lafargue's "father" French.

It is a good point for the postponement of war to record that since the "straight out talk" of Lord Salisbury about Egypt, laying down that the evacuation of that country is not a party, but a national question with England, the French have been forced to examine with greater gravity and serious "sang froid" the rôle that England can fill, in case there be an outbreak of hostilities. They admit that her insular position will enable her to select her moment to strike in.

Since the English themselves keep harping that they have no army, at best only a presentable skeleton, continentals may be excused taking them at their word. It is time for John Bull to utilize his excellent raw material. Foreigners point out that England has some soldiers, but no military system. And her fleet is concluded not to be yet up to the former standard her situation and her interests command. France intends to augment her navy, to keep pace with her army perfection. At present not a button may be truly said to be wanting on the soldier's gaiter. Having accomplished that work, she intends to turn out a powerful fleet also. This must be the work of years—so that England must keep abreast of the times. There are few chances to count upon in modern warfare, since it has become a science. Then the doctrine of chances is the Bible of fools.

The parish anarchists scribbled "Vive l'anarchie," in red paint, on the Argentine Consulate. The nuisance was quickly removed.

Opinion does not know what to think about the Brazilian split, nor can Brazilians here throw true light on the breaking up. The concensus of opinion rather surmises a group of independent republics, with a common federation for external relations. Those who hold Brazilian stock are nervous, a series of sub-republics might not recognize the national debt.

The liquidator of the Panama Canal Co. has published the last of his series of reports on the state of the project. Reading between the lines, he does not see any hope—that sole medicine for the miserable. The only aid to be counted upon is from the state, but foreign relations forbid France challenging the Munroe doctrine. A certain number of balance millions remains to be divided between contractors and shareholders, but "all the wit of man" will not be able to apportion the dividend in the pound.

THE NEW RAILWAY TO SAN FERNANDO.

Jan. 15th.

Mr. Editor,

With reference to your article published this morning on "the new Branch of the Rosario Railway," I should, as an engineer and a resident on the line of works described, wish to correct a few errors that have crept into your account.

I fear that the construction of this branch will prove a very costly mistake for the Rosario Company, as they will be competing on most unfavourable terms with the old line. The new line is longer, the time taken is longer and always will be so while the trains have to run over the opposition line to Retiro, and then over the old line to Belgrano before getting on to the branch.

Besides which, the towns have grown up around the old stations, and the new ones are most inconveniently situated either at the bottom of the barranca or at a distance from the houses. There is no doubt that the work has been well executed, but the absurd extravagance exhibited at many points has made me, as a shareholder, wince.

I note your mention in terms of somewhat gushing praise a Mr. W. McDonald as being engineer of the line. As a matter of fact, Mr. Clarke is the company's engineer in this country, and Messrs. Livesey and Son at home. Consequently Mr. McDonald has no more right to be described as engineer of the line than I have to that doubtful honour. I understand a gentleman of that name was employed to watch the actual construction, and very badly he has done it, if an outsider may judge from the bridge you praise so highly. The design of the iron work (made in England) is fairly good, but the most tremendous botch has been made in the brickwork or in the erection, as any one may see who looks along the viaduct from the line. One bridge has two and the other three girders, but the scientific (?) engineer only allowed the same over-all width for both, consequently the girders in one case are dangerously near the carriages. If his other successes (?) have been equal to this one, I can only trust he may never have the spending of any more companies' cash where I am interested. Except that I should trespass too much on your space, I should have pleasure in pointing out the curious levels of the boasted retaining wall to my fellow.

Shareholders.

MAJOR BARRITTS REFUGE.

January, 7th.

Mr. Editor.

We have an Irish family at the chacra Lujan who are in a very destitute condition, and as the poor wife expects to be a mother at the end of this month, something must be done immediately to assist her.

They are honest, sober people but have been very unfortunate, having worked 3 months, and were then unable to recover their salary.

The woman has hardly any clothing but a thin dress, and has nothing for her expected babe. I shall be thankful to receive some clothing for them.

Another case is even more distressing still: the husband we have found employment after six months of enforced idleness, and I now wish to bring the family to town and give them a little furniture. For days together they have been without food and living in a little ranch outside Lujan, with no furniture except two boxes. The five children are terribly thin and appear to have suffered keenly: two or three of the children are without boots, and clothes will be needed for them before they are fit to be brought to the city.

The father is getting $20 per week besides his food, and situations I can obtain for the two oldest children. In this case also what is to be done must be done quickly, as the poor woman expects to be confined in a few weeks time.

I shall be very thankful to receive sufficient to bring them to Buenos Ayres, pay a couple of months' rent for them and find them some clothes.

Mr. Frank Cassell, of La Plata, has kindly sent me $ 10.00 on their behalf.

I would take this opportunity of saying that I apprehend great difficulty in providing work during the winter for the many for whom we found employment for the summer months, and undoubtedly there will be many poor needing assistance.

Just now potatoes are exceedingly cheap, and I should be very thankful if some of our Estancieros would send us a consignment that we could keep to supply really poor people.

Yours

Alfredo de Barritt.

RAILWAY ITEMS.

The N. R. Board have proposed the following as technical inspectors:—Adolfo Hannans, Roberto Dia, Luis Koronda, Eduardo Schlatter, Tomas Allam and Emilio Lombardo.

There is a plan at present in the Home Office showing the dredging work done by the Southern Railway at the mouth of the Naposta, Bahia Blanca. The Company have done the work at their own cost, and at high water there is a depth of 24 feet in the channel.

In reply to the question put by Government, to what amount the Central Northern can claim guarantee, the N. R. Board has reported that, according to the decree of March 12, 1889, the guarantee should be paid on the purchase price, $16,000,000 gold, from Feb. 14, 1889, and on 50 per cent of the 5 millions gold allowed for repairs and rolling-stock from the date of the conversion of the bonds of the 1881 loan, and on the remaining 50 per cent as soon as the repairs be concluded.

The directors of the Buenos Ayres and Valparaiso Transandine Railway Company, limited, submit to the shareholders the accounts of the company, made up the 30th June, 1890, duly audited. They state that the first four sections of the company's line—from Mendoza to Uspallata, a distance of 214 kilometres—after having been duly examined and approved by the inspecting engineer appointed by the Argentine Government for that purpose, were opened to public traffic on the 22nd of February, 1891. In accordance with the terms of the works contract, Messrs. J. E. and M. Clark and Co., the contractors, are entitled to work, for one year after opening, the sections now delivered to public traffic. The directors, not having yet received particulars of the traffic from the local board, are not now in a position to publish any account of the result of such working. Application has been made to the Government for the inspection of a further portion of the line between Uspallata and Rio Blanco, a distance of about 28½ kilometres, with a view to opening the same to public traffic. The progress made in the construction of the line during the year to June 30th, 1891, has not been so great as had been anticipated, owing mainly to financial embarrassments. They were at one time almost at a standstill, and, although since resumed, are still delayed. Owing to the disturbances in Chili the stoppage of works upon the line from Los Andes towards the frontier, under construction by Clark's Transandine Company, and to other causes, the directors have considered it advisable to petition the Argentine Government to permit the establishment of a temporary terminus at Punta de las Vacas, Km. 142. The Courts have named a receiver, in view of the fact that no interest has been paid on debenture stock.

QUILMES.

Mr. Editor,

I have waited some time to see if there was any repetition of the bad smell that "Quilmero" complains of, and have asked people if they had experienced any bad smell. They all answered in the negative. I think "Quilmero" must have been mistaken. Since the improvements were carried out as required by the Municipality, there has been no bad smell.

Resident.

EDITOR'S TABLE.

Weather hot, politics hotter, and the Gold Eagle in a passion were yesterday's features. The bird closed his beak, opened his mighty wings, and made a dash at his "hereditary foe", the rate of exchange, knocking the latter heels over head as if he were a baby. The burning state of affairs in Mendoza was the main topic, and a political earthquake in the land of grapes is looked on as a dead certainty.

The British Minister has been requested by Mr. Pelham Ogle on behalf of a representative member of English residents in the city to cable to Her Majesty and the Prince of Wales the loyal and respectful sympathy of the English community in Buenos Ayres on the sad occasion of the demise of Prince Albert Victor Edward.

A Solemn Memorial Service in commemoration of the death of H. R. H. the Duke of Clarence will be conducted at St. John's Anglican Church to-morrow (Sunday) morning at eleven o'clock. The funeral decorations of the church will be placed in the hands of Mr. A. J. Deck. Her Britannic Majesty's Minister, the Honble F. J. Packenham has expressed his intention to be present. The music will be as usual under the direction of Mr. E. Frank Barnes.

We hear that a movement is on foot to send a telegram to the Prince of Wales conveying the condolence of the British residents.

The Rowsell Fund will be closed at this office to-night.

We have to acknowledge thankfully the receipt of 50$ from the Hon. Francis Pakenham, being His Excellency's annual subscription to the Irish Orphanage.

We call the attention of all who use gas to the "Economizadora de Gas," to be had at 574 Calle San José, as can be seen by advertizement in another column. We can guarantee that it has saved the STANDARD forty per cent per month, and the experience of several of our contemporaries and the General Post Office is the same. The patentee guarantees a saving of 25 per cent, but is better than his word. He is also the Gas Companies' friend, as his apparatus saves waste of gas.

As a resort for an evening's amusement there is no place in town equal to the Carlo Circus. The pantomime now given is, La Fiesta de Piedigrotta en Napoles, a 'fête champêtre,' at which is assembled almost every known character, besides a host of unknown ones—all eating macaroni from basins, and drinking Chianti by the bottle full. The inevitable English tourist and his pug and his Dick in livery enliven the scene with their eccentricities, and John Bull fairly brings down the house when he proposes to dance and is hoisted on the table. The music, we are informed, has been written expressly for this piece, and the symphony is grand as well as gay, made up as it is, of Neapolitan light airs, quaint and joyous.

Now that poor Prince "Eddie" has "joined the majority," the following anecdote of his courage and humanity possesses sad interest. *Sportsman* tells it:—"Rescued by the Duke.—In deciding to make the Duke of Clarence a wedding present the citizens of York probably remembered, amongst other things (says the London correspondent of the *Liverpool Courier*), a very creditable action which his Royal Highness performed when stationed in that city with his regiment. The duke used often to go boating on the Ouse with some brother officers, and one day, when they were paddling down to Bishopthorpe, they saw a little girl, reaching to pluck a flower, over-balance herself and fall into the river. In a moment the duke sprang into the water, which was up to his armpits, carried the child safely ashore, placed her in her mother's arms, and was off up the river homewards before the mother had time to thank him."

We congratulate our Transandine contemporary the *Chilian Times* on its new suit of type and other improvements. It was always a good paper; now it is better, and the best in Chile.

The officers of the German men of war in Montevideo port were entertained at dinner on Tuesday evening, in the Hotel de la Paix, by the German Minister, after which there was a splendid ball in the rooms of the German Club, music being supplied by the magnificent band of the "Leipzig". We believe the German vessels leave to-day or to-morrow for the Cape of Good Hope.

A Mount contemporary says that a few days ago, Dr. Rodriguez Larreta presented the Fire Brigade with $300 in recognition of services rendered in saving his house from fire. $100 of this, being the portion of Capt. Bañales and other officers, was sent to the Spanish Hospital, $80 was spent in a dinner for the corps, $5 in an afternoon drink all round, $30 in lottery tickets, and $35 in a flag for the corps. Sum total $300. E. & O. E.

Notes of preparation for Carnival are already heard in some of the fashionable clubs. As for the great majority of the population, they look on the approaching three days of idleness with disgust, as so much time, work and money lost.

The ship's company of the U. S. corvette Essex have issued invitations to a "Social Dance" at the German Hall "Vorwarts," 764 Calle Rincon, to-night. Dancing commences at 9 o'clock.

The music-loving public will be glad to hear that the English Book Exchange, 422 Florida, is going heavily into the music business, and has just received a selection never seen here before, of all the different song and music and dance folios, besides an immense number of comic and other songs, as well as banjo music from England. It has also two novelties in the book line: Findlay's "The Working and Management of an English Railway," new and enlarged edition, and Theo. Childs, "The Spanish American Republics," the largest illustrated work on South America ever published.

There must be rare old fun just now in enfeebled Portugal, where they appear to have a rough and ready way of dealing with banking and railway magnates. The telegraph announces that the police have made a clean sweep of the Directors of the Lusitanian Bank and the Portuguese Railways Company, and locked them all up. What particular "little" game the worthy men have been at is not stated; but it must be something "gordo."

We are favoured with the following:

"Dear STANDARD,

"In a recent issue you had some facetious remarks about Mr. Haggard, of the English Diplomatic service, and his wanderings in search of his post.

"As a matter of fact, Mr. Haggard obtained leave of absence to visit Rio de Janeiro for the purpose of pressing on the Brazilian Government the claims of his father-in-law, the late Joseph Hancox, concessionaire of the Aguas Pluviaes works, whose contract was arbitrarily cancelled, and whose death was caused by the shock he received.

"As a result of that visit, the Brazilian Government has just decreed that a sum of 300,000$ (or £15,000) is to be paid to the heirs of Mr. Joseph Hancox, so that I think you will admit that the laugh is now on Mr. Haggard's side.

"Yours truly

"*Viator.*"

The remarks were not ours, and we distinctly said so. We hope Mr. Haggard enjoys his laugh. We like laughter, as it maks people fat, especially when it has such a thumping sum as £15,000 for an ally.

Mr. Haase has an advertizement in another column that house-hunters should read. Splendid houses to let at the Once, (next the Flores Tram station) at from $50 to $180 per month.

We heaved a long sigh of relief yesterday on learning that the live torpedo so long missing at the Tigre was found in the Lujan river on Thursday evening. We are no longer steeped in deadly, daily, dreadful and depressing apprehension lest some of our boating subscribers should be suddenly sent skywards in little bits.

The following paragraph from that old and staunch friend of this country, *The South American Journal*, will provoke a sardonic "sonrisa" here; but, no doubt, our good-natured contemporary only wrote it to console the "unhappy investor", who has about as much chance of half a loaf as he has of the whole, and that is certainly not much:—"Some of the bondholders interested in the Province of Buenos Ayres and the City of Buenos Ayres Six per Cent. Loans are becoming impatient, and, it must be admitted, not without cause. One of these unhappy investors asks a contemporary's "good offices to wake up, if possible, the persons who, by their most reprehensible delay are preventing the holders of these bonds from obtaining even the proverbial half loaf." Somebody, no doubt, must be to blame for the delay, but we do not think that the fault lies with the people on this side. It is really too bad, and is a temptation to use strong language." There is something irresistibly comic in the bondholders having waited till things reached their present pass to "begin to be impatient." We had no idea that our London friends possessed so much of Job's great virtue. How will they feel when the inevitable end comes?

While the Spanish steamer Catalina was ploughing the waves on her homeward trip a madman on board set fire to his cabin. In the midst of the alarm and confusion he rushed on deck, jumped over the side, and was seen no more.

An ingenuous correspondent at Mar del Plata puts forward as one of its chief attractions that only *one* murder was committed there in the past twelve months! In such a very small population, we consider the ratio of murders quite too high to be agreeable, or a matter for congratulation.

The tobacco smuggle scandal has revealed the astounding fact that some of the employés who were absolutely caught in the very act were allowed to retire on a stiff pension, instead of being handed over to justice!! This is 'un colmo."

There was a comical scare in Calle Florida yesterday owing to a seemingly high-lifer youth dropping his revolver as he was alighting from a tram car. The weapon went off

Hayward's Paste Dip
For the CURE of SCAB
AND DESTRUCTION OF ALL FILTH INFESTING THE SKIN OF SHEEP AND LAMBS.

Time, Labour and Money saved by its use.
Messrs. Moore & Tudor, Maipu 163, B. Aires.
Chascomus, March 23rd 1891.
Dear Sirs—
"I have tried HAYWARD'S "PASTE" DIP on my Sheep, and have pleasure in bearing testimony to ITS EFFICACY AS A DIP. I need have no hesitation in recommending it generally as a Cure for Scab, without discolouring or damaging the Wool.
The "PASTE" is in my opinion preferable to the Powder, and will probably have a larger sale than the latter."
Yours very truly
(Signed) JOHN KELLIE.
It has been proved by many important Estancieros that HAYWARD'S PASTE is more convenient to use than any other Dip, being already mixed and dissolving in any kind of water. It makes a smooth soapy bath which adheres well to the Fleece and leaves the wool clean and soft.

ON 'CHANGE.
Friday, January 15th, 1892
The gold market opened very firm this morning and advanced to 63.50$ per ounce, say 290 % premium; towards the end of the ring the speculation took a bearish turn and the ounce fell to 62.80$, say 286.% premium. Speculators who are working for a fall argue that the clip and the crop must put down the gold market—meantime, exchange is falling rapidly; they point to the fact that over 100,000 sovereigns arrived last week, that 60,000 more arrived to-day, that 400,000 more must arrive before the end of the month, and that over half a million will arrive in February—meantime, gold rules firm. The only explanation of the bulls is that politics are critical and that at any moment there may be a "coup d'etat" or a "coup de main."
There can be no doubt that our London friends are in earnest this time, for gold shipments from Southampton, London and Liverpool are assuming formidable proportions. When we consider that over one million sovereigns are on the way out to the Plate, we may presume that the London Syndicate is sparing no effort to put down the gold premium here. It is to be regretted, perhaps, that this supreme effort is made at a moment when politics tend to nullify all the good effects of such a heavy supply of specie. The majority of dealers in gold are convinced that affairs must continue in a very critical position, in fact become daily more brittle, until the elections come off; until then, and even for weeks afterwards, we may prepare to live on the "qui vive," in dread of commotion or chaos.
The supply of gold at the ring this morning was again very heavy: over twenty-two thousand ounces changed hands; the price opened at $63.30, rose to 63.50, and closed firm at 62.90—say twenty cents under last night's closing rate. Sixteen hundred sovereigns were sold for cash: the market opened at 19.65, rose to 19.70, and closed at 19.55. It was reported that one of the heavy bullish dealers had let go sundry thousands of ounces this morning: this, however, did not much affect the market, for the fall in price did not amount to much, the market closing very hard, in spite of the consecutive telegrams of mammoth gold shipments from England: the market is growing callous and pessimistic and sneers at many theories that formerly were accepted as axioms for a fall in specie.
Talking of gold shipments, the Lamport and Holt steamer Bellucia entered port to-day and land

Mr. Melton Prior, the correspondent and artist of the *Illustrated London News*, was welcomed on 'Change to-day, and had he been the Shah of Persia or the Mikado, he could not have expected a more hearty and royal welcome from brokers, merchants, dealers, consignees, artists, lame ducks, gutter snipes, etc. etc. There was a tremendous uproar at the ring as pencil in hand he sketched the rough classical features of the liquidator, the sharp, eagle countenance of the leading German broker, and the soft Meridional light of the fashionable Argentine dealer. There was a rush and a scramble as he penned the immaculate paper and people in the Calle Piedad outside, as they heard the terrible uproar, trembled, thinking the revolution had at last burst in the Bolsa; the very policeman at the corner whistled for help, but the excitement subsided as the talented artist emerged from the hall with a sketch of the Cedula King, amongst whose subjects we may reckon the artist as well as many other friends in Lombard-street. We have seen many sorts and conditions of men welcomed on 'Change in the last thirty-two years, but never have we seen such a popular welcome extended as to-day and the recipient of Bolsa honours was surprised and much affected at the scene: he will agree with everybody in this market that the Buenos Ayres Bolsa broker is the most polished and most attentive of his kin in the world.

There was another sudden slump in exchange this afternoon. Weak as the feeling was this morning, it was a fainting fit later in the day. At 4 p.m. first class drawers demanded 48¼d. on London and 5.12 francs on Paris. The market in fact, has been swept clean during the last three days; needless to add that bankers have taken heavily.

In view of the extraordinary disclosures of Sr. Ouviñas, Inspector of Revenue, who charges Sr. Ramon Blanco with defrauding the Custom House to the amount of $140,000, the Government has appointed a special committee to look into these matters, viz.—

Sr. Saravia, Director of Revenue Board.
Sr. Smith, Contador Mayor.
Sr. Baibiene, Chief of Custom House.
Sr. A. Vera, Secretary do.

The Government have authorized the Administrador de Rentas to forward goods to the Catalinas Deposits whenever it should suit the interests of the Treasury and of the commercial community. This may mean much or nothing.

The Lamport and Holt steamer Heverlius did not enter dock to-day; she is expected to-morrow.

An auction will be held to morrow immediately after the first ring; particulars will be seen lower down.

The gold market ruled hard at the second ring: about thirteen thousand ounces were sold for to-morrow: the price opened at $62.90 and closed hard at $63.10. Sovereigns closed at 19.57: the closing rates show a premium of 287¾% on ounces and 288% on sovereigns. La Plata Cedulas ruled week.

The following is a summary of the business effected in stocks and shares to-day at the second ring:—

South American Ounces—
Jan. 16th.. 13,087 at 62.90-63-63.10

Sovereigns—
Jan. 16th.. $900 at 19.55-57.

Catalinas Moles—
Jan. 16 .... 500 at 6.80-70.

National Bank Shares—
Jan. 16 .... 50 at 20.00.

National Hypothecary Cedulas—
Jan 16 ..C 12,530 at 66.

Provincial Hypothecary Cedulas—
Jan. 16 ..K 5,750 at 29.70.
Jan. 16 ..L 19,950 at 29.70-80.
Jan. 16 ..M 2,000 at 29.40.
Jan. 16 ..N 5,000 at 29.50.
Jan. 16 ..O 49,000 at 29.30-40-50.
Jan. 16 ..P 1,250 at 30.

Auction for to-morrow:—
20,000 Cedulas N.
200 Credito Real Shares.
100 Previsora Shares.
400 Banco Constructor Shares.
200 Constructora de Flores.

The returns of the Custom House to-day amounted to

Difference in favor of Jan. 1892.....	—	$80,220.86

The Minister of Finance has fixed the rate of gold at 370 for to-morrow for payment of Customs dues.

Mr. Carlos Lix Klett was welcomed to-day on his return from a tour through the agricultural districts and estancias of Marcos Paz, Navarro, Lobos, Saladillo, Alvear, Bolivar, Trenquelauquen, etc. etc. In the whole West and South-West of the Province of Buenos Ayres he reports a thriving state of affairs among farmers, so far as wheat and alfalfa are concerned; in many parts wheat is already threshed, yet there are all over the camp in all directions numerous stacks of wheat. Agriculture on the branch railroad to the Saladillo shows a wonderful growth of recent years; on both sides of the line the traveller sees an ocean of maize and alfalfa. In spite of the incipient drought the maize plantations look splendid and give promise of an exceptional crop. Outside Saladillo heavy rains have fallen for several months; all the partido of Alvear is full of water, and the grasses are as luxuriant to-day as in Spring. This may explain how the majority of sheep have gone lame; sheepfarmers are already dreading heavy losses in their flocks. Several estancieros are selling flocks of sheep—of 1000 animals and more—'al barrer' at $1.50 per head, shorn. In those remote districts one sees large quantities of wool stored away by farmers, who are looking forward to better prices. In these districts, Mr. Lix Klett says, there are few 'rodeos' of cattle; yet buyers of cattle for 'invernada' are securing that part of the country and have paid $-.0 to $25 per novillo, 3-year-olds and above. Last year the South-West suffered from drought; this year it has had a superabundance of water and all the camps are fine 'invernadas,' and estancieros are confident that in winter their cattle will be rolling in fat. Farmers have large potatoe plantations, but the 'bicho moro' has put in an appearance, and in some quarters losses are heavy; the crop, however, will be very large. Mr. Lix Klett says that he saw in Saladillo some parcels of wheat the quality of which is exceptionally good, and will excite much attention when sent to this market. At Zapiola, especially in Las Heras, the cheese industry is raising its head; several factories have been started of late and they send already to this city heavy quantities of fresh cheese, not to mention superior qualities, dubbed Chester and Holland cheese. The dairy-men in those districts are now paying very heavy rents for camp, and this rise in the rent is driving agricultural farmers out of those districts.

The statutes of the Banco Popular de Mercedes, of which our popular friend Don Nicolas Lowe is president, have been finally approved by the La Plata Government. The Bank has been, moreover, allowed "personeria juridica."

SAVING IN GAS

The object of this Company is to supply to consumers of gas an apparatus called "Economizadora de Gas," patented by Decree No. 852, of 20th February 1890.

The "Economizadora" is complete in its effects, is non-explosive and does not emit offensive smells.

Consumers who use the "Economizadora" have nothing whatever to pay for putting it up or removing it.

Once fitted up, the consumers have only to pay from 20 to 50 per cent on the saving effected.

VCTORIA CONVALESCENT HOME

Sunnyside, near Lavollol,
F. C. del Sud.

Hon. Medical Officer—
Dr. MACKERN, Tucuman 571.
Superintendent—
Mr. CARSON.

Patients are received on Tuesdays and Fridays, and a carriage will be at Lomas Station to meet the train which leaves Plaza Constitucion at 4.30 p.m., so as to convey them and their luggage to the Home.

Private patients pay $5 per day; ordinary patients $2 per day.

Recommendations for free orders can be obtained from any member of the Committee, but applicants must prove that they have no means wherewith to meet the ordinary charges of the Home.

To obtain the order for admission, a recommendation must be taken to the Hon Medical Officer, accompanied by a note from the patient's doctor certifying that this a case coming within the rules of the Institution.

Visitors are allowed to see their friends on Wednesdays and Sundays from 1 to 4 p.m., and for their convenience a Brake belonging to the Institution will on every Sunday afternoon be waiting the arrival of the 2.12 train at Lomas, (train leaves Plasa Constitucion at 1.45 p.m.) and take them to the Home and back free of charge.

Subscriptions and donations in aid of the funds of the Home will be thankfully received by the Honorary Treasurer.

JOHN DRYSDALE, Chairman.
R. J. FENNESSY, Hon. Treasurer.

TEA
LA MAGNOLIA

INJURIOUS TEA DRINKING.

In the "Daily Post" of September 2 appears a leading article—evidently from an analytical expert—showing that after 12 minutes "draw," Indian Tea yields 17-73 of tannin, while from China comes only 7-93. What this means few know, but those troubled with indigestion may realise in part by use of True China Tea for one week.

GUARANTEED PURE.

Beware of gross imitations of this well-known mark. Sold in tins of 1, 3, 6 and 12 lbs.

LAIDLAW'S

Tobacco Powder

Laidlaw's Tobacco Powder has many advantages over **Arsenic Powders and Pastes** for curing Scab.

Arsenic Powders and Pastes have many objectionable defects

Laidlaw's Tobacco Powder has none.

Arsenic Powders and Pastes are very dangerous and in many cases large lots of Sheep, Cattle and Horses have been killed by them.

Laidlaw's tobacco Powder has no bad effects on either Sheep or men applying it.

Laidlaw's Tobacco Powder costs less than Arsenic Powders and Pastes, is always of one uniform strength and can be relied upon with perfect confidence, and does not injure the wool, but on the contrary improves the quality and increases the quantity.

ARSENIC POWDERS AND PASTES

Dry and burn the wool, and diminish the quality and quantity.

Testimonials from many of the principal Estancieros can be seen on application to th

EXTRACT OF TOBACCO.

According to numerous testimonials which we hold the extract of pure tobacco is the only infallible remedy to radically cure the scab in sheep and naturally the cheapest. As there are several trade marks like ours care must be taken to see that the extract bears the key marks, without which it is not genuine.

Directions for use

One part of extract mixed with 100 to 150 parts of hot or cold water for bath, and with 80 to 100 parts for hand curing.

DR. J. COLLIS BROWNE'S

CHLORODYNE.

The original and only genuine

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Browne, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, etc.

From Symes & Co', Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medecine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent, we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Crampas, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation dury many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See the "Times," July 13, 1864.

Sold in bottles at 1s. 1½/2d., 2s. 9d., 4. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelmning medical testimonials accompanies each bottle.

CAUTION.—Beware of Piracy and Imitations.

Sole Manufacturer—J. T. DAVENPORT, 33 Great Russell Street, Bloomsbury, London 196 af. 7. feb 7. 1p w

FERRO CARRIL CORDOBA Y ROSARIO

Esta nueva linea recien librada al servicio público completa la red de trocha angosta entre las provincias de Jujuy, Salta, Tucuman, Catamarca, Santiago del Estero y Córdoba y Rosario de Santa Fé.

LA TURQUIA

Maers and Fishbein, London.

Calle San Martin 272 and Lavalle 1212

Rich assortment of legitimate Turkish cigarettes and tobacco, the only kinds that do not injure smokers, being recommended by the most illustrious physicians in Europe and this country.

Whoever desires to preserve his health should smoke exclusively our tobacco, which is more aromatic and more palatable in comparison than any other. Dr. Pirovano says in his letter of 23rd December 1891 about our tobacco.

"Your tobacco is less prejudicial to the health than any I have yet tried."

Now Opened.

DAY. SON & HEWITT'S Veterinary Medicines

Mr. Wm. Kemmis, the well-known breeder of fine stock, writes as follows:—

Estancia Las Rosas,
Ferro-Carril Central Argentino,
10th Jan., 1891.

I consider that no estancia which has any stock worth giving medicines to ought to be without these medicines.

The GASEOUS FLUID is the very best colic medicine I have ever seen given to horses, and the RED DRENCH for any illness after foaling or calving or lambing is, I consider splendid.

Yours truly,
(Signed) W. KEMMIS.

AUCTION BY MAXIMO GOWLAND

(with intervention of Lloyd's Agent)

On Saturday the 16th Jan.,

the undersigned will sell by public auction at 2 p.m. at the

"Barraca Balcarce," Barracas

by order of Messrs. Ernesto Tornquist and Co., for account of whom it may concern, and with the intervention of Mr Philip Dorman, Lloyd's agent, the following important parcel of Tin Plates, same being part of a consignment ex s.s. "Garrick," destined for the "Kemmerich" Factory at "Santa Elena," but as the lighter "Nuevo Criollo" into which they were discharged sprang a leak and sank in Dock No. 1—same will be sold here, as above stated.

Ex s.s. "GARRICK"

659 Boxes TIN PLATES of various marks and weights.

For further particulars apply to the Auctioneer, Calle Bolivar 351.
